

# PreferredCommunications

Preferred Offices understands that communicating, whether through data or voice, is critical to virtually every business regardless of industry type or size.

With this in mind, Preferred Offices has made substantial investments in the telecommunications and IT infrastructure at our Center locations. Our state-of-the-art voice and data network provides you with a complete line of on-demand services to support your business. You may select bundled or “a la carte” programs and services depending on your business requirements.
